

GOOD-BYE EASTERN LEAGUE

Scranton Club Franchise Has Been Offered for Sale.

STATE LEAGUE WANTS US

Possibility That the Franchise May Change Hands in This City--Newark and Fall River Want It--Manager Barnie's Term Ends.

Scranton will no longer be a member of the Eastern league of base ball clubs, and it is possible that this city will next year be represented in the Pennsylvania State league.

There was an amicable parting yesterday between the association and Manager Barnie, who has gone to Brooklyn and Hartford, in which two cities he usually spends the winter.

The announcement that Scranton will go out of the Eastern league is made authoritatively and is substantiated by present efforts by Fall River and Newark parties to purchase the franchise.

For several days each has been bidding toward the \$2,500 asked. These facts were confirmed by President Betts in an interview with a Tribune reporter yesterday.

Lost \$3,000 This Season. During the past season the Scranton association lost approximately \$3,000, and but for the good executive ability of Manager Barnie the directors of the association believe the loss would be much more.

The decision to sell the franchise was made with the assurance that Scranton is wanted in the State league, and in which league a profit was made in 1892.

Early last spring and during June officers were made for the stock by a coterie of young business men, with whom some older and influential persons were associated.

In the event of the franchise being kept in this city by new owners, it would not be a surprise if President Betts continues to be financially interested, although he has previously denied having such an object in view.

Along with the announcement of the proposed franchise sale it is stated that President Betts has \$250 in the bank looking for a playing manager for 1894.

One of the most conspicuous of the parties who earlier in the year made an offer for the franchise was seen by a Tribune reporter last night and told of the proposed sale. It was the first information the gentleman had of the situation, and when told of the price mentioned, stated that he stood ready to guarantee that the franchise would remain in Scranton provided the amount was correctly reported. He said:

"Among the men with whom I was interested in the matter no other has recently taken place nor have we talked it over casually, but I will personally guarantee that the franchise will remain in this city if \$250 is the value placed upon it by its owners."

"I don't understand this proposition to sell the franchise to parties in another city, unless the present owners are anxious to get out of the business here. But I want to say right here that none of my money goes into a State league enterprise and that about the way my friends and I want to invest our money in order to see Scranton represented by a good club in a big league, but we don't want anything to do with a State organization."

"Base ball in Scranton will be killed by a change to a minor league. In any event, if this city with 150,000 population to draw from cannot support an Eastern league club it won't support a club in any league."

NATIONAL LEAGUE. Yesterday's Results. New York..... 7 Baltimore..... 0 Philadelphia..... 14 Washington..... 2 Chicago..... 11 Cincinnati..... 0 St. Louis..... 7 Pittsburgh..... 3

Baltimore dropped three points yesterday by breaking even on the two games with the New Yorks. This keeps them fifteen points ahead of the Cleveland, who can attain a standing of 556 by defeating Louisville two games and going to Chicago Monday for a postponed game.

A TALK ABOUT BEER

When Certain Effects Follow Beer Drinking, Then Look Out!

WHAT IT MAY INDICATE

How Beer Affects Various People--A Strange Fact Familiar to Most Doctors But Not to the Average Man Who Quaffs the Foaming Lager.

Drink beer! Don't drink beer! This is the very contradictory advice, but, nevertheless, it is the condensed opinion of two great classes of people. There are some who believe that a glass of beer is a healthful and invigorating beverage. There are others who regard beer as a sort of disguised poison. The strangest thing about it is that a glass of beer, you may be sure, under certain conditions.

The fact of the matter is that a glass of beer may be either a benefit or a curse, according to the health of the person who drinks it. If a man or woman is in sound health it may do good. If, on the other hand, there is a weak spot in the liver or kidneys, injury will result from the drinking. One of the greatest proofs that liver complaint is more common than we suspect is the Oct. 1st remark of beer drinkers: "I wish I hadn't taken that glass."

In this way, beer acts as a barometer which shows the state of the health. If you drink a glass of beer and soon after complain of a headache, a pain in the stomach, or a bad taste in the mouth, and, perhaps, the first stages of indigestion, you may be sure that your liver and kidneys need prompt attention. Neglect the warning and more serious results are bound to follow.

These great vital organs are the first to indicate disease, and when they are out of order the miserable sensations above mentioned are sure to be felt. When this is the case it is cheaper and wiser to remedy matters before more serious consequences follow. Then it is time to leave up the beer.

When this is the case it is cheaper and wiser to remedy matters before more serious consequences follow. Then it is time to leave up the beer. The liver and kidneys, which are the great filters of the body, purify the blood and restore healthy action to the liver and kidneys. For this purpose there has never been but one remedy, and that is Warner's Safe Cure, which for years has been the best and most reliable and best health restorer in the world. Physicians everywhere acknowledge it. Thousands of men and women testify to its beneficial effects. It is, and always has been, unparaleled.

Arrangements are now being made for a series of war polo matches between the New York Athletic club's crack team and the Grand Trunk Water Polo team, of Montreal, Can., for the championship of the world.

Chairman Boyd of the Athletic committee of the New Jersey Athletic club, has decided to change the date of the club's carnival of sport from Dec. 7 to Feb. 1. The carnival will be held in Madison Square Garden.

The members of the Cambridge athletic team, who have been training for four days at the Yale field, left New Haven for New York yesterday. They will continue their training at Berkeley Oval and during their stay will have several handball and tennis matches at the club house on the oval.

The Eureka Athletic club, of Baltimore, has matched "Kid" McCoy and "Joe" Gilman, the light weight pugilists, for a ten-round fight. The contest will take place on Oct. 7, and the winner will receive a purse of \$500.

The Twelfth regiment team, of New York, has received an invitation from the Georgia team, which shot with the New Yorkers at the recent competitions at Sea Girt, to participate in a series of shooting matches, to be held at Savannah, Ga., on Feb. 12.

"Piper" Donovan, the world's professional 100-yards sprinter, is most anxious to have a match with Wefer, the amateur champion, provided such an event is sanctioned by the Amateur Athletic union, and suggests his willingness to donate the entire gate receipts, after deducting legitimate expenses, to the Carney hospital, of Boston.

IS TRYING TO MOVE A HOUSE

Scranton Traction Company Wants to Prevent Contractor Barber from Doing So--Arrested for Fast Driving on Main Street--Other News Notes.

The West Side interests of The Tribune have been placed in the hands of Emerson Owen, to whom all news announcements and complaints may be addressed.

Traction company officials were much put about yesterday over the granting of a permit to Ira T. Barber to move a house along the line of their Washburn street route between Rebecca and Main avenues.

The house, which is a small frame structure, is to be moved from its original location on Rebecca avenue to Tenth street, and the route between these two points is Washburn street, which is traveled by the company's tracks. When the contractor got the house loaded intact on two wagons it was seen that it would not clear the intersection of Street Commissioner Kinsey and when that official reached the scene he found Mr. Barber, the contractor, in possession of a license from the city to haul a load of lumber.

Three hundred and twenty-five mine ties flung in a car tried yesterday morning before Alderman John. David E. Nicholas controls a wooded piece of land on the West mountain in Hamann and Kinsey, and when that official reached the scene he found Mr. Barber, the contractor, in possession of a license from the city to haul a load of lumber.
